WHAT TO EXPECT AFTER REFERRING A DERMATOLOGY CASE TO THE SKIN VET

The Visit Record

You will receive a visit record via email (let us know if this is not your preference) as soon as possible after the initial appointment. Usually this will be the same day. This will contain details of our clinical examination, the differential diagnoses, diagnostic testing, therapies dispensed or recommended and information given to the client about the disease process as well as revisit recommendations.

Discussion Availability

If you would like to call us to discuss referred cases we are more than happy to answer any questions you may have.

Further Procedures and Treatments

Your client will be referred back to you for any non-dermatological procedures or advice. If further procedures are recommended as a result of the dermatology referral, such as oncological treatments or surgeries which may be provided at a specialist or general level depending on the expertise of your clinic, we will contact you to discuss your preferences regarding these.

Information and Education

We will include further information about a disease process whenever possible to enhance client education and to provide as much information as possible to referring veterinarians.

Our Relationship with You

We value our relationship with you and have a policy of professionalism and collegiality with our referring veterinarians. We encourage clients to see referral as an extension of your practice and will always point out the strengths of having a great relationship with a general practice for the majority of health care, as well as using access to referral medicine in different areas when necessary.
